**To the Honourable the President and Members of the Legislative Council in this present Parliament assembled**

The humble Petition of the undersigned residents of South Australia respectfully sheweth:-
That the rights of families, who lose an unborn child due to criminal acts, be recognised and afforded justice under the South Australian legal system. Families deserve a separate Act to recognise the loss of a child, rather than discount that loss as an injury to the mother, as is the only current legal acknowledgement.

The death of an in-utero baby because of murder, drug affected driving, assault, rape, or other prescribed offence should be acknowledged as a crime in and of itself.

Your petitioners therefore request that your Honourable House will support the passage of The Honourable Sarah Game MLC's *Statutes Amendment (Loss of Fetus) Amendment Bill;* enshrining the rights of families of unborn children who die in-utero as a result of a prescribed criminal act.
